A proposed drawing correction or corrected drawings are required in reply to the Office action to avoid abandonment of the application. The objection to the drawings will not be held in abeyance.

***Claim Rejections - 35 USC § 103***

Art Unit: 2634

4. The following is a quotation of 35 U.S.C. 103(a) which forms the basis for all obviousness rejections set forth in this Office action:

(a) A patent may not be obtained though the invention is not identically disclosed or described as set forth in section 102 of this title, if the differences between the subject matter sought to be patented and the prior art are such that the subject matter as a whole would have been obvious at the time the invention was made to a person having ordinary skill in the art to which said subject matter pertains. Patentability shall not be negated by the manner in which the invention was made.

5. Claims 1, 18, and 20 are rejected under 35 U.S.C. 102(b) as being anticipated by or, in the alternative under 35 U.S.C. 103(a) as obvious over Ling et al. (US Patent 6,377,607 B1).

(1) With regard to claim 1, Ling et al. discloses in Fig. 5, an apparatus (96) for determining likelihood values of input data bits from a plurality of code symbols and a plurality of pilot symbols, comprising: a memory element; and a processor configured to execute a set of instructions stored in the memory element, the set of instructions for: determining a gain vector relating the plurality of code symbols and the plurality of pilot symbols in accordance with channel characteristics (100); and using the gain vector to determine likelihood values of a designated code symbol, wherein the input data bits are carried by the designated code symbol (col. 17, lines 40-col. 18, lines 1-6).

(2) With regard to claim 18, claim 18 inherits all limitations of claim 1.

(3) With regard to claim 20, claim 20 inherits all limitations of claims 1 and 18.

***Allowable Subject Matter***

6. Claims 17 and 19 are allowed.

Art Unit: 2634

7. Claims 2-16 are objected to as being dependent upon a rejected base claim, but would be allowable if rewritten in independent form including all of the limitations of the base claim and any intervening claims.
